

K-Love radio has played a vital role in my local community in providing positive, encouraging music, commercial free. It provides a positive alternative to people of all ages, young to old. If K-love was replaced by another radio station, many people would lose this resource and be very upset and without a strong Christ centered voice in this great radio programming. IT is entirely family friendly programming. Continuing the broadcasting of K-Love radio is in the public interest because there is no other radio station like its kind. If K-Love were discontinued in my community, many people would be deprived of this valuable radio programming with its family values and Christ centered beliefs. Thank you for your time and consideration on this matter.
